Join us and let's make Transylvania, Partium and Banat together the most beautiful and richest country in the world.

WE KEEP THE GOOD, WE CORRECT THE ERROR, WE DISCARD THE BAD!

In order for everyone to develop as well as possible, fair agreements are needed. Unfortunately, the Romanian laws in the last 100 years were unjust and did not serve the interests of Transylvania, Partium and Banat. If we had remained independent 104 years ago, we could be as rich as Switzerland or Singapore today. Transylvania, Partiun and Banat has more land and natural resources than Switzerland or Singapore! We are 2.5 times bigger than Switzerland and 141 times bigger than Singapore.

"The time has come to focus all our energies not on fighting the old, but on building a new future"!
